EDUCATION

Stony Brook University

Bachelor of Science, **Computer Science**

Bachelor of Science, **Applied Mathematics and Statistics**

Cumulative GPA: 3.97/4.0

Expected Graduation: May 2021

Credits to Date: 104

SKILLS

Software: **Java, C, C++, Python, LabWindows/CVI**

Courses: **Algorithmic Analysis, Data Structures, Computer Networks, Computer Vision, System Fundamentals, Multivariable Calculus, Linear Algebra, Graph Theory, Combinatorics, Probability and Statistics**

WORK EXPERIENCE

Applied Research Associates, Inc. | Raleigh, NC

May 2020 – Present

Software Development Intern

- Refined the 3D model export pipeline to view subdivided tunnel facilities on a 3D representation of the earth.

BitWize Corp. | Melville, NY

June 2019 – February 2020

Software Development Contractor

- Developed LabWindows/CVI GUI application to monitor heater and actuator status for onboard deicing systems.

Stony Brook University | Stony Brook, NY

Fall 2019

System Fundamentals Teaching Assistant

- Held weekly recitations and office hours to teach general system fundamentals and MIPS Assembly language.

Veeco Instruments, Inc. | Plainview, NY

Summer 2019

Software Development Intern

- Created C# software to configure elevators, wafer aligners, and robotic arms in thin film process equipment.

Cox & Company, Inc. | Plainview, NY

Summer 2017, 2018

Software Development Intern

- Developed LabWindows/CVI GUI application to verify behavior of fuzzy output signals of deicing controller unit under extreme temperature settings.

PERSONAL PROJECTS

Virtual Rubik's Cube Solver and Visualizer – *Python*

- Utilized OpenGL for 3D simulations.
- Implemented Rubik's Cube solving algorithms, specifically CFOP.

FIRST Robotics Competition Dashboard – *Python*

- Streams camera feed from server onboard the robot.
- Identifies, locates, and tracks in-game targets using computer vision for autonomous robot control.

EXTRACURRICULAR ACTIVITIES

Stony Brook University Competitive Programming Team

September 2019 – Present

- Tied for Top Underclassmen Team – ICPC Greater NY Regional, 2019
- Attend weekly lectures on algorithmic problems solving.
- Collaborate with team in weekly practice contests.

FIRST Robotics Competition, Team 7400 | Melville, NY

June 2018 – Present

Software Development Mentor

- Teach software development in C++ and Python.
- Work with students to develop vision processing software.

ADDITIONAL

Awards

- Dean's List – All Semesters
- American Computer Science League, 2017 – 1st Place in NY
- Saint Joseph College Programming Competition, 2017, 2018 – Tied for 1st Place

Interests – Rock Climbing • Rubik's Cubes • Cycling
