# Michael Wolf-Sonkin

michaelwolfsonkin@gmail.com | (646) 618-2611 | github.com/mikee478

#### **EDUCATION**

Columbia University

Master of Science, Computer Science

August 2021 – December 2022

Cumulative GPA: 3.93/4.0

Stony Brook University

Bachelor of Science, Computer Science

Bachelor of Science, Applied Mathematics

August 2018 – May 2021 Cumulative GPA: 3.92/4.0

# **SKILLS**

Technical: C, C++, LabWindows/CVI, Python, OpenGL, Git

Courses: Computer Graphics, Physically Based Animation, Computational Geometry, Competitive Programming

## **WORK EXPERIENCE**

### **J.G. Smith Associates Inc.** | Setauket, NY

Software Development Contractor

• Created LabWindows/CVI test tool for DC-DC converters.

# Applied Research Associates Inc. | Raleigh, NC

Software Development Intern

• Refined the 3D model export pipeline to view subdivided tunnel facilities on a 3D representation of the earth.

## BitWize Corp. | Melville, NY

June 2019 – February 2020

Software Development Contractor

• Developed LabWindows/CVI application to monitor heater and actuator status for onboard deicing systems.

#### Cox & Company Inc. | Plainview, NY

Summer 2017, 2018

Summer 2021

Summer 2020

Software Development Intern

• Created LabWindows/CVI program to verify behavior of fuzzy signals of deicing controller in extreme temperatures.

# PERSONAL PROJECTS

## Virtual Rubik's Cube Solver – Python

- Utilized OpenGL for 3D graphics.
- Implemented Rubik's Cube solving algorithms, specifically CFOP.

#### **Drift Simulation** – C++

Implemented 3D Perlin noise in GLSL to randomly generate a fluid-like landscape that evolves over time.

# Ray Tracer – C++

- Capable of producing realistic images by tracing the path of light rays as they interact with objects in a scene.
- Implemented Phong shading, shadows, antialiasing, reflection, refraction, mesh rendering, texture mapping, and BVH.

# Flocking Simulation – C++

- Modeled the behavior of individual animals in a flock using three simple rules: cohesion, separation, and alignment.
- By following these rules, the simulation can exhibit complex and realistic flocking behavior.

#### **EXTRACURRICULAR ACTIVITIES**

## **Competitive Programming**

September 2019 – December 2022

- Stony Brook University and Columbia University competitor.
- ICPC Greater NY Regional, 2021 3rd Place.
- Collaborated with team in weekly practice contests which leverage algorithmic problem solving.

#### **ADDITIONAL**

#### Awards

- Columbia University Dean's List All Semesters
- Stony Brook University Dean's List All Semesters

Interests - Rock Climbing • Rubik's Cubes • Cycling
